NOTICE OF ALLOWABILITY

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the projection with an asymmetrical cross section must be shown in the drawings of the present application and can not be incorporated by reference. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance.

1. It is the opinion of the examiner that the art of record (considered as a whole) neither anticipates nor renders obvious "reforming at least a front portion of said pre-form to increase an angle of inclination of this front portion with respect to a remainder of the panel, to give the projection an asymmetrical cross-section and during said re-forming, a top portion of the pre-form is flattened and stiffened" in combination with the rest of the claimed limitations set forth in independent claims 8 and 15.
2. Based on Applicant's arguments and the examiner's review of Office Action (April 11, 2007), the claimed subject matter is deemed to be allowable. Further clarification/explanation can be reviewed in applicant's arguments filed September 11, 2007 on page 10.
3. Therefore it is concluded that claims 8-15 are allowable of the prior art of record. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
